Dear Matt Liveringhouse:

The commissioner of transportation is responsible for adopting standards which are reasonably necessary to protect the health and safety of individuals using special transportation services. The standards applicable to STS providers, drivers and vehicles are those found in Minnesota Statutes, section 174.30 and Minnesota Rules Chapter 8840. Minnesota Department of Transportation's (MnDOT) Office of Freight and Commercial Vehicle Operations (OFCVO) is responsible for regulating STS trainers by determining and ensuring compliance with the standards.

The Minnesota Department of Transportation's (MnDOT) Office of Freight and Commercial Vehicle Operations (OFCVO) reviewed your STS training courses. Based on the corrective actions you have taken we have resolved your STS trainer course audit. You are reminded that, as an STS trainer, you are required to notify our office in writing of any training you will provide within 72 hours of the course date.

If you have questions about this letter, please contact Mike McKay, credentials supervisor at 651-366-3674.

Sincerely,

James Clancy
Transportation Program Specialist 1
